
Science Park is in the east of Amsterdam, in the East/Watergraafsmeer district. The symposium will be held in the CWI building (buildings shown in orange above) and the workshops will be held in the F & G Buildings of the UvA Faculty of Science Complex (shown in green).
The No. 40 bus runs about every fifteen minutes from Science Park, Amstel, and Muiderpoort railway stations. All the buildings are no more than 300 metres walk from one of the Science Park bus stops or the train station, which are shown above circled in red.
If you are arriving by bicycle from the Casa400 Hotel/city center, follow the Ooster Ringdijk bike path to the east and after you pass the large park located north of the dike/canal, turn south into Science Park. Bike racks are located in several locations around the complex.
